

PRESS RELEASE

ALTEL CHOOSES OASIS SMART SIM FOR ITS 4G CARDS

Oasis Smart SIM, a major SIM and mobile solution supplier, is proud to announce it has been selected by ALTEL, the first national mobile network operator in Kazakhstan, to deliver O-LTE SIM cards for ALTEL 4G, the company's LTE network.

Paris, France, November 12, 2013

ALTEL, the first national mobile network operator in Kazakhstan, chooses Oasis Smart SIM to deliver its O-LTE SIM cards, for its LTE (4th generation) network. This way, Oasis brings its expertise for ALTEL to enhance the offer of ALTEL 4G, one of the leading brands of the ALTEL group. The first Oasis "advanced SIM" O-LTE cards have already been delivered to ALTEL.

The fact that ALTEL chooses Oasis to deliver its LTE SIM is a recognition of the company's level of expertise in the latest evolutions of SIM cards. Oasis LTE SIM are based on HELIOS operating system, which implements new features required by the standards. As it is based on IP (internet protocol), LTE, the fourth generation (4G) network, is the first step for a new way of thinking the mobile telephony, by implementing a new network that will enable users to get and send data more efficiently.

"ALTEL puts its utmost efforts in guaranteeing a superior communication quality in Kazakhstan. We are confident in Oasis expertise and technology, as their LTE cards will allow us to guarantee our customers an optimal use of the 4G network in the country", says Mr. Maxut Sauranbekov, the president of the JSC «ALTEL».

"The development of 4G is a new step in wireless communication. Oasis, proud of its partnership with ALTEL, keeps on expanding its offer and its presence in Russia and the CIS, in order to deliver the appropriate services to fit customer demand and new technologies deployment in these countries," adds Olivier Leroux, Oasis Smart SIM CEO.

About ALTEL

JSC «ALTEL», a subsidiary of public company Kazakhtelecom, is the first telecommunication services provider in Kazakhstan, established in 1994. ALTEL has commercially launched its first 3G networks in Kazakhstan since December 2003. In 2012, Kazakhtelecom in partnership with ALTEL have launched new LTE data transfer network. Currently, ALTEL operates five brands nationwide: ALTEL 4G for 4G/LTE communication, PATHWORD for prepaid subscription, JET for mobile internet, City to offer fixed line numbers for mobile devices, and postpaid Dalacom.
